## A.I.M. database

---

Bienvenido a la base de datos de la Asociación Internacional de Mercenarios

### Our Objective

For as long as history has existed, warfare has been a part of the human experience and as long as warfare itself has existed, paying others a substantial amount to take your place in the frontline has aswell. Making the work of a Private Military Contractor (P.M.C.) one of if not the oldest of proffesions.

Today at A.I.M. we proudly continue this milenia old tradition by contacting willing proffesionals with clients that require their services

### Services

Be it for righteous Regime Change, protection of V.I.P. individuals or safeguarding points of interest, Mercenaries are adaptable to any situation that requires their presence, whilst being untied to any agenda or higher power with different goals, why rely on the fickle whims of a governmental administration? When you can secure your interest and take control back of your safety.

Government is just a monopoly of violence afterall, why not introduce some competition into the market?
